Air Quality Forecast for the UK

Issued by the Met Office

Today: Some light winds and strong summer sunshine, allowing areas of Moderate air pollution to develop across parts of central and southern England by the end of the day. Mostly Low in the north.

Tomorrow: Remaining settled with light winds and plenty of warm sunshine, allowing the Moderate air pollution to become more widespread in central and southern England. Still Low in the north.

Outlook: Air pollution levels remaining Moderate on Wednesday and Thursday although showers may contribute to a slight reduction in places. Turning cooler and breezy on Friday, leading to mostly Low air pollution across the whole of the UK.
